Committed to environmental care

Responsive to customer concerns

Recycled paperboard:

- 70% of our products are recycled paperboard
- Made from 10% to 50% post-consumer waste, reducing energy use and minimizing the waste stream
- Many grades available to meet specific needs and customer requirements
 - High-end graphics reproduction
 - Product protection, presentation and display
 - Wind powered energy sources
 - Coatings or laminates for most product lines

Virgin paperboard:

- 30% of our cartons are from virgin paperboard
- Made from wood fiber harvested from managed, sustained-yield forests
- Recyclable to reintroduce strong virgin fiber into the paper production cycle
- Preferred by some customers for its texture and clarity of graphics

Window film:

- Recyclable / biodegradable wood fiber film available

F&S Carton
